

X Games Aspen Colorado

Snow Bike Race Report

February 4th 2018

What an incredible experience. Now that the Bailey Team has been back from the X Games in Colorado we have had a chance to digest the magnitude of being involved in such an incredible event as the X Games.

We could not be prouder of how our rider Yanick Boucher performed all weekend.

When commenting on X Games, team owner Stuart Hunt had this to say,

“Flying back from Aspen, I had time to reflect on the experience at X Games. It is like no other event, I or the team, has ever been to. After watching it on TV for so many years, we were excited to see if it was as BIG a deal as it seems when watching. Trust me, it is! The entire town of Aspen is aware of the Games and there to help support and promote the event.

For our first time, we did amazing! We were well prepared, had great support from the technicians at Yeti / Camso and witnessed some great rides by Yanick. He rode hard all weekend against a field of riders with a ton of snow bike racing under their belt.

We couldn't have been happier than to see Yanick qualify Saturday morning and make it to the final for X. Until you are up against it, it is often tough to gauge just where you are at, we now know without question, our rider and our team have what it takes to compete at the elite level of this new and growing sport. With all this in mind, there is no question, we will be looking to return to X next year! Thank you to all our

partners for the support and for helping prior to and during the Games. “

After returning from Colorado and reflecting on his experience there Yanick had this to say,

“Such an awesome experience it was competing at X Games 2018, We got into Aspen Colorado a week prior to the competition to get use to the elevation change. We had so much fun as it gave us the chance to go do some skiing, backcountry riding on the snowbike and testing our Husqvarna Canada race bike equipped with a Yeti Snow MX kit which was working great for us in the mountains. The racing was even better for me, I was able to qualify for the final after getting 4th in my heat race. I didn't get the best of starts in the final and visibility was bad on track but I was able to finish up in 9th place. Overall I'm super happy about my first X Games experience and I hope I can come back and do even better next year! Huge thanks to my team Bailey Motorsports for making this whole trip possible.”

A special thanks to Yeti Snow MX and the development team at Camso for working with us to get the right set up in the Yeti kit. With their support and the hard work done at Flybyu Motorsports on the bike build, we had a set up that was ready for the biggest stage snowbike racing will see this year.

Also want to make mention of the great support from HMK and Mystik Lubricants this year. HMK has the team covered in gear from head to toe and were at X this year supporting all their athletes. Mystik has all our race and support vehicles covered with the Lubricants needed. Be sure to check them out for your needs, you won't be disappointed.
