Yanick Boucher Ready to Hit The Track at X Games This Weekend!

January 24th 2020

It all starts today, X Games 2020!

We have been working towards this day ever since we left here a year ago.

Months of preparation, training, tuning and testing have gone into our program. We are ready. Thanks to Derek at Flybyu Motorsports for not only working on the bikes, but for always moving our program forward.

We have worked hard developing our 2020 bike and our results thus far this season have shown we are a team to watch out on the track.

Yanick has put in the hard work training and riding and now ready to compete against the best Snowbike athletes in the world.

On racing today Yanick had this to say, *"Here we go X Games is here! I can't wait to get out on the track after walking it last night. It's a different level of excitement being here! I have trained hard for this moment looking forward to a fun weekend racing the best guys in the sport. We have come a long way in the past three years it's been fun and challenging I've enjoyed it a lot. Thank you to*

Derek at Flybyu for building me such a sick bike and to Stu for all the support. Thanks to all our sponsors for helping make this happen. Now it's my turn to show you what I've got."

Thank you to all our amazing partners that have helped get us here. We have teamed up with the best in the business and it shows.
